Adarsh Mishra
Frontend-Focused Full Stack Developer
Mumbai, India • adarshmishra0701@gmail.com
GitHub • LinkedIn • Twitter • Portfolio

🧠 Summary

Frontend-first developer with 5+ years of experience delivering high-performance Web3 and product interfaces. Trusted by teams like Adidas, Polygon, and Flipkart to lead fast launches, deep integrations, and seamless user experiences. Adept in React ecosystems, wallet flows, and large-scale frontend architecture.

💼 Experience

Software Developer
R.N.A. Global Ltd – Remote, India | Feb 2023 – Present
- Developed NFT reveal backend and smart contracts for **Adidas Capsule Reveal**.
- Built full-stack flows for **Adidas ALTs**, including vending machines and trade marketplaces.
- Delivered wallet-integrated auction UX for **Adidas x Bugatti / BAPE** launches.

Fullstack Developer
Polygon Technology – Remote | Jan 2022 – Feb 2023
- Led camera-to-NFT tech for **Adidas x Prada**, minting identity-masked photos.
- Built **MintNFT** one-click minting SDK (100K+ transactions).
- Shipped Flipkart Firedrops + in-app Web3 activations.

Fullstack Developer
Cope.Studio (Acquired by Polygon) | Jun 2021 – Jan 2022
- Delivered 30+ Web3 sites in 6 months with full-stack ownership.
- Built token-gated, auction, minting, and marketplace dApps.

Freelancer / Consultant
Remote | 2020 – Present
- Designed an ESG intelligence dashboard for **Avishkar Capital** with stakeholder flows and risk scores.
- Delivered gasless onboarding and wallet fallback for **Sentient.xyz** (3.5M+ traffic).

🚀 Selected Projects

Sentient.xyz – Dobby Fingerprint NFTs
Gasless NFT minting with quiz + task-based access. Custodial wallet system with fallback to user ownership. 3.5M+ visitors.

Adidas x Prada NFT Drop
Live camera interface that mints privacy-safe user photos as NFTs. 3,000 NFTs claimed in minutes.

Adidas x Bugatti & BAPE Auctions
Exclusive 100-piece NFT auctions (Phygital). Built real-time auction UI, wallet bidding, and bid refund system.

Avishkar Capital – ESG Platform
Created dashboard + analytics workflow for ESG-focused VC. Enabled startup onboarding, review, scoring, and export.

🛠️ Skills & Tools

Frontend: React, Next.js, HTML, CSS, JavaScript, TypeScript, ShadCN
Web3: wagmi, viem, ethers.js, web3.js
Backend: Node.js, Postgres, GraphQL, REST APIs
Tooling: Git, Docker, Vercel, Figma, Discord
Strengths: UI systems, product iteration, rapid delivery, stakeholder communication
